

Subsurface Technologies, Inc. is a well and pump company that provides specialty services to public and private sector clients. Our primary services include installation and repair of groundwater pumping systems, aquifer pumping test and water well rehabilitation. We specialize in well rehabilitation and are the developers of the Aqua Freed® and Aqua Gard™ carbon dioxide injection technology.

STI is seeking a Project manager. Your responsibilities will include, but will not be limited to:

- Plan, direct and monitor all aspects of well rehabilitation, well pump installation and groundwater pump test projects.
- Produce and coordinate several projects concurrently.
- Communicate with client for scheduling, project updates, manage customer needs, submittals and deliver final report.
- Communicate with office staff with project expenses and billables.
- Coordinate staffing and workload through entire project.
- Prepare project summary reports.
- Create scale drawings and well sketches for in house needs.
- Maintain pH meters, 4-gas air monitors, downhole cameras.
- Inputting data to spreadsheets and tabulate data for project report.

Required qualifications:

- Strong technical education, technical writing skills, data management skills, a professional demeanor, and the desire to learn are essential.
- Bachelor's degree in Environmental Engineering, Environmental Science or Geology required, Master's degree preferred.
- 40-Hour OSHA HAZWOPER Certification a plus.
- Strong attention to detail with excellent analytical, judgment and problem-solving capabilities.
- Ability to work independently and in a team environment.
- Strong written and verbal communication and organization skills.
- Working knowledge of MS Word, MS Excel, and TurboCAD.
- Ability to spend at least 50% of work hours in the field.
- Possess a valid driver's license.
- Position requires work Monday through Friday with occasional evenings and weekends.

This is a good opportunity for candidates that wish to gain hands on experience in the water supply industry. Please contact me with questions or to discuss the position.

Regards,
